

## PRESS RELEASE

### Simon Hegele Healthcare Solutions Expands to Singapore

CHICAGO/Karlsruhe, November 16, 2021: Simon Hegele Healthcare Solutions announces its establishment of a formal business presence and regional management structure in Singapore. The global subsidiary of logistics service provider Simon Hegele is taking this step to support its partners in the ASEAN region even more profoundly with highly specialized services for OEMs of large medical devices and to expand its business in the Asia Pacific economic region. Simon Hegele will base technicians in several ASEAN locations to offer fast response times and cost-competitive services to new and existing partners. The ASEAN member states include Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam. The new regional team in Singapore will handle customer projects as needed in coordination and with support by Simon Hegele's current operations in the United States and Australia and will thus have the beneficial access to additional, highly qualified personnel during the ramp-up phase.

“Bringing Simon Hegele’s years of technical and logistics experience permanently to the ASEAN region will undoubtedly translate into a new level of superior service for our current regional partners” says James Nestel, CEO of the Americas and Asia Pacific for Simon Hegele Healthcare Solutions. “I look forward to working with the team to further develop new local relationships to new and existing customers within the member nations, leading to future growth for the company”.

Founded in 1920, Simon Hegele originated as a moving and transport services provider offering an international, diversified portfolio for sophisticated logistics services and other business process operations. Today the company is considered among the leaders for industrial contract logistics (3PL) in Germany and the global market leader in the healthcare services sector. The company’s service portfolio includes production-related assembly, transportation, installation, and reverse logistics of large medical devices as well as comprehensive logistics services in the industrial and commercial segments.
